

## IRISH FREEDOM IS NEAR, PASTOR SAYS

Back From Europe, Sure Erin Will Take Liberal Dominion Rule.

JACKSON, Mich., Sept. 6.—Irish freedom is near, in the opinion of Fr. E. M. Cullinan, pastor of St. Mary's Catholic church, who has returned from a six weeks' tour of Ireland.

"During my stay in Ireland I came in contact with all classes of Irish people," said Father Cullinan, "and the impression is unmistakable that the Irish will accept dominion home rule, if it is given them with more liberal provisions than the plan now offered, and the conclusion cannot be avoided that these more liberal provisions will be conceded by the English government."

"Every Irishman is today a potential Patrick Henry," he continued. "He is ready to die rather than to wear again the British yoke. The English realize that Ireland, for the first time in its history, with the exception of Ulster, is a practical unit for independence, and pressure is also brought to bear upon England from other quarters, of which the United States is one of the most important. Other British dominions desire the Irish to have the same liberties accorded them and their premises have so expressed themselves."

Before the trip was declared, Father Cullinan concluded, "railroads in Ireland were torn up, telephone lines cut, bridges destroyed to prevent passage of motor troops and the entire country was like an armed camp. Since the true much of the destruction has been remedied, and things are getting back to a peaceful basis, in which the best factor is the serene confidence of the Irish that freedom will soon be theirs."

## CAMP GRANT TROOPS LEAVE OLD HAUNTS

## POLICE ABANDON PREVIOUS THEORY IN DAY SLAYING

NEW YORK, Sept. 6.—A new mystery today was thrown about the killing of George Day when police practically abandoned previous theories upon which they have been working.

Until today police held to the belief that Day had been killed by a woman who believed that her place in Day's affections had been taken by another. Investigation during the last 24 hours however, has indicated that some one upon whose trail they have not yet hit shot the former fur manufacturer.

The blonde woman with whom Day spent several hours just before he was killed was found by police. She came to Day's apartment to keep an appointment. When told by an officer stationed there that Day had been killed she collapsed. Several hours of questioning by police failed to break down her story that she knew nothing of the killing.

Police are still looking for a dark haired Belgian girl with whom Day is said to have broken an appointment to take the blonde woman to dinner.

## MAY CLASH OVER HUN INDEMNITY

LONDON, Sept. 6.—A new clash between England and France is developing with German indemnity as the chief issue at stake.

The conflict over the reparations question threatens an acute domestic situation as well as a new international crisis, it was declared by officials today. France by her action on German reparations payments has complicated the financial plans of the British government.

Conferences have been going forward, and as a result of the conferences and in consequence of the rejection of the allied plan for distribution of indemnity it is claimed by British officials that France will receive more and England will receive less than had been agreed upon originally.

## Markets and Financial News

### TRADING BRISK AS STOCKS GO UPWARD

Large Deals in Market Recorded, Although Money Conditions Same.

NEW YORK, Sept. 6.—Resumption of business on the stock exchange Tuesday after the prolonged recess was accompanied by further involuntary retirement of the short account and intermittent signs of public interest. Trading was for the largest and most comprehensive scale of any day in several weeks. Mexican Petroleum's initial gain of four points was speedily extended to 6 1/2. Kindred issues rose 1 to nearly three points, with moderate gains in other foreign oils and junior domestics.

Prominent steels, equipments, coppers, shippings, sugars, tobaccos and chemicals, likewise motors and their accessories gained 1 to 4 points at their best. The entire list was subjected to sharp downward revisions before the close, however, Mexican forfeiting half its rise, while many other stocks cancelled almost all their advantage. Sales amounted to 735,000 shares.

Any tendency toward easier money conditions was nullified by late Saturday's clearing house statement, which reported an actual deficit of cash reserves. All call loans were negotiable at 5 1/2 per cent, and time offerings were scarce.

A decline of slightly more than 20 in sterling exchange was attributed to sensational causes, notably the Irish situation. French and other continental bills were reactionary, especially Holland and the Scandinavian countries.

Bonds derived much of their upward impulse from the better tone of the stock market. Mexican and Belgian issues were distinctly strong with other foreign offerings. Convertible rails added to recent gains, but Liberties were irregular. Total sales (par value) \$10,250,000.

### WHEAT SOARS UP 21 CENTS IN TWO WEEKS

CHICAGO, Sept. 6.—The highest prices on the present upturn were made for wheat on the Chicago board of trade Tuesday. December showed over 8 cents above the close of Friday, and 21 3/4 over the low of two weeks ago. The sensational upturn in cotton combined with a broader speculative trade and with the probability that Russian relief would take a great deal of wheat, made the upturn easily attained.

The New York Tribune says, Jesse Livermore, whose extensive operations have been the feature of the stock market for the last two years, believes that the protracted period of deflation is at an end. Mr. Livermore's opinions are the more interesting from the fact he has been recognized as the leader of the bear faction, and is regarded as a keen student of economic conditions. "It is a time," said Mr. Livermore, "the American business man realized that the downward trend has been checked and that industries of the country in general have seen the end of the readjustment period."
